YOUR SUPPORT GIVES THEM THE COURAGE TO *dream big*

FACS Niagara currently supports over 430 children, teens, and young adults in foster care. The reality is that youth raised in care are at higher risk of experiencing homelessness, unemployment, involvement with the criminal justice system, low educational attainment, and chronic mental illness once they leave care.

However, these challenges don't define their future. Youth in the care of FACS Niagara are determined to create a new narrative for themselves and their families—one rooted in stability, safety, and security. They are resilient, compassionate, and capable individuals, ready to thrive with the right support.

Dream at Ravine will inspire you with stories of resilience and ask you to dream of a future in which all of Niagara's children in foster care have what they need to break cycles of adversity, forever.
